

We develop solutions for life together with people who care.

About RAUMEDIC

As a partner of the international medical technology and pharmaceutical industry, RAUMEDIC develops and produces customized components for customers, including tubing, catheters, and molded parts as well as complex groups of components and systems for a wide range of diagnostic and therapeutic uses. For the clinical areas of neuro-monitoring and traumatology, RAUMEDIC produces high-precision pressure-measurement sensors. The company is 100 percent family-owned.
